University of Central Punjab

Faculty of Information Technology and Computer Science

Course Title: Human Computer Interaction
Course Code: SESE 2123

Assignment 4

Date: 08-01-2025
Total Marks 60

Name	Registration Number	Section

CLO #	Course Learning Outcome (CLO)	Taxonomy Level	Mapping to PLO
CLO 3	Design innovative solutions to real-world Human-Computer Interaction challenges, and employ a range of design evaluation techniques to assess and refine the designs for enhanced Usability .	C3	PLO 4

Instructions:

1. Attempt all questions.
2. Group Member Allowed (Project Group Members)
3. Assignment should be handwritten and submitted on A4 sheets or Assignment sheets only. Violation will result to deduction of 5 marks from the scored marks.
4. Each group is supposed to attach this front page with his/her assignment. Violation will result to deduction of 5 marks from the scored marks.
5. Due Date for Assignment (Soft Copy) is January 14, 2025 10:00 PM (Portal).
6. Due Date for Assignment (Hard Copy) is January 15,2025
7. Late submission will result in 10% deduction.
8. No request for late submissions will be considered after two working days of the deadline.
9. No request to review assignment will be considered after 3 working days of the review in class.

The following are the requirements of the report deliverables.

1. **Title Page:** Be careful about Font structure and alignment.
2. **Group Members:** Name and Registration number of all group members.
3. **Evaluation of this assignment will be based on class activity done in class / quiz 4. (10 Marks)**
4. You have been assigned a project for business process engineering. You are supposed to perform the heuristic evaluation and cognitive walkthrough on the front end created in your BPE project.
   - For heuristic evaluation find at least 3 heuristics being violated and 2 heuristics that have been applied in the screens. You have to evaluate 10 screens of the project. Repeat this for all the screens. (25 Marks)
   - Fill the evaluation sheets and tables given below for all the screens.
   - For cognitive walkthrough repeat the table given on the next page for 5 different tasks. You have to devise user actions and task descriptions by yourself. (25 Marks)

Heuristic Evaluation

Project Name

Evaluator Name(s)

Negative application of heuristics

Sr. No	Usability Problem	Severity	Suggestion	Heuristic being violated	Screen Number (Attach screens in End with serial numbers)

Positive application of heuristics

Sr. No	Screen Number	Heuristic	Comments

Cognitive Walkthrough

Questions/UA's	UA1	UA2	UA3	UA4
Will users see that the action is available?				
Once users have found the correct action, will they know it is the one they need?				
Is the effect of the action the same as the user's goal at that point?				
After the action is taken, will users understand the feedback they get?				

==========BEST OF LUCK==========
